

Get the best
from the outdoors
by SOLISYSTEME

SOLISYSTEME®

The pleasure of a summer night

A good novel on my day bed

A brunch in the garden

Idleness on the terrace

An autumn lunch with friends

THE creator of the BIOCLIMATIC pergola

SOLISYSTEME is the inventor and historical leader in BIOCLIMATIC pergolas.

Since 1998, SOLISYSTEME has designed and manufactured pergolas and innovates every day in order to provide its customers with tomorrow's solar protection solutions.

THE BIOCLIMATIC CONCEPT

The BIOCLIMATIC pergola is an original and exclusive concept that provides you with an entirely new living space. Temperature, coolness or sunshine are shaped as you like or by the weather.

Protection:
protects from the sun and inclement weather

Aeration:
provides natural ventilation

Regulation:
regulates the temperature in the adjoining room

Luminosity:
adjusts the brightness of the light

At SOLISYSTEME, we focus on local manufacturing and quality. Our know-how is **Internationally renowned** and SOLISYSTEME now exports its French Design all around the world.

20 years of experience dedicated to your outdoor

PERGOLA

BIOCLIMATIC

Rainwater drainage tested up to 230 mm/h. (CSTB)

Wind resistance tested up to 180 km/h. (CSTB)

Load resistance tested up to 300 kg/m². (APAVE)

- Customised and scalable aluminium structure
- Manual or motorised
- Compatible with all of the accessories
- Horizontal or sloped structures are possible
- Can be adapted to any type of architecture

Play with shade and light

Change the color of the weather

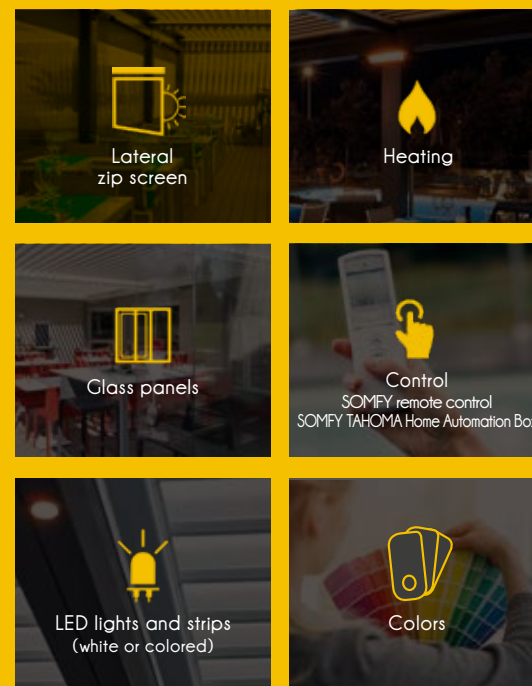

Simple and fun, the ARLEQUIN pergola can be fully opened or fully closed as easy as child's play. Create patches of shade and sunlight simply by moving the colored panels.

- Custom-designed pergolas
- Frames and panels manually operated
- Wide range of colors (22 for aluminium panels, 19 for the canvas panels)
- Different materials are possible for the colored panels

Options and accessories*

Accessories that are everything but incidental.

With our multiple possibilities of personalisation, enjoy your terrace every day of the year, whatever is the season.

* Compatible with all of our pergolas.

Enjoy your haute couture terrace

With its clean lines and unique design, the ELEGANCE finish will create a genuine living space, day and night.

The ELEGANCE finish offers customisation for the peripheral frame and represents a real tool for showcasing your store's identity.

- Hidden fasteners and hardware
- Adjustable atmosphere and lighting
- Can be associated with the BIOCLIMATIC and ARLEQUIN modules
- Compatible with all of the accessories

We are the original patent holder, and the whole of our production is handled by our team. Our pergolas BIOCLIMATIC and ARLEQUIN benefit from the OFG label (Guarantee of French Design).

All of our aluminium profiles are subjected to the Qualicoat and Qualmarine standards, which guarantees protection over time and an impeccable finish.

WARRANTY

Our pergolas come with a 10-year warranty on the aluminium (louvers and structures). A 3-year on the mechanisms and panels (ARLEQUIN).
